CO₂ Solution Announces its 2010 Annual and Special Meeting of Shareholders

Quebec City, QC, November 17, 2010 – CO₂ Solution Inc. (“CO₂ Solution” or the “Company”) is pleased to announce that its 2010 Annual and Special Meeting of Shareholders will be held on Wednesday, November 24, 2010, at 2:30 pm EST, at Laval University, Pavillon La Laurentienne - Auditorium Jean-Paul Tardif - Room 1334, in Québec City.

CO₂ Solution will also be broadcasting the Annual and Special meeting of Shareholders live via a public Webcast. To access the webcast, please visit “www.cnw.ca/en/webcast” prior to the start of the event.

About CO₂ Solution

Based in Quebec City, CO₂ Solution Inc. has developed a proprietary bio-technological platform for the efficient capture of carbon dioxide (CO₂), the most important greenhouse gas (GHG), from power plants and other large stationary sources of emissions. The Company’s technology platform exploits the natural power of a bio-catalyst (enzyme), carbonic anhydrase, which functions within humans and other mammals to manage CO₂ during respiration. CO₂ Solution has successfully adapted the enzyme to function within an industrial environment, and thus has taken advantage of a biomimetic approach to CO₂ capture based on millions of years of evolution. The Company is commercializing its technology for coal fired power generation, the oil sands and other CO₂-intensive industries where a low-cost capture solution is key to meeting climate change legislation in a cost effective manner.

CO₂ Solution’s technology platform is protected by several North American and European patents, including the use of carbonic anhydrase for CO₂ capture and release in a packed column system. News releases and additional information can be found at www.co2solution.com.
