## **CO<sub>2</sub> Solutions Ends Collaboration with Neumann Systems Group**

**Quebec City, September 25, 2014** – CO<sub>2</sub> Solutions Inc. (TSX-V: CST), the leader in the field of enzyme-enabled carbon capture technology, today announced that as part of its strategic review of the options available in the pursuit of commercial opportunities, particularly in the United States, the Corporation has determined that continuing the collaboration announced earlier this year with Neumann Systems Group (NSG) is no longer in its best interests. The collaboration, therefore, will end effective September 25, 2014.

“We are now focusing our attention and resources on alternative collaborations to meet our objective of offering a low-cost, next-generation commercial CO<sub>2</sub> capture system for applications such as Enhanced Oil Recovery”, stated Evan Price, President and CEO of CO<sub>2</sub> Solutions.
