

TSX-V: CST

CO₂ Solutions to Present at Calgary Upstream Petroleum Industry Conference

To highlight application of CO₂ Solutions' carbon capture technology for the O&G industry

Quebec City, September 28, 2016 – CO₂ Solutions Inc. (TSX-V: CST), the leader in the field of enzyme-enabled carbon capture technology, today announced that it will give a presentation at the Canadian Society of Petroleum Geologists conference on Carbon Dioxide Capture Storage & Utilization (CCSU) and the Future of Upstream Petroleum Industry Greenhouse Gas (GHG) Emissions Management. The conference will take place on Thursday, September 29, 2016 in Calgary, Alberta.

Convened by Shell Canada Ltd. and CMC Research Institutes Inc., the conference provides petroleum industry participants the opportunity to learn about the current status and potential of CCSU in the context of GHG management while maintaining industry economic competitiveness.

Mr. Jonathan Carley, CO₂ Solutions' Vice-President of Business Development will present the Corporation's recent commercialization progress and the potential for its technology to economically reduce GHG emissions in the Western Canadian petroleum industry.

Further information on the event can be found at <http://bit.ly/2clmKFi>. Mr. Carley's presentation will be posted on CO₂ Solutions' website.

About CO₂ Solutions Inc.

CO₂ Solutions is an innovator in the field of enzyme-enabled carbon capture and has been actively working to develop and commercialize the technology for stationary sources of carbon pollution. CO₂ Solutions' technology lowers the cost barrier to Carbon Capture, Sequestration and Utilization (CCSU), positioning it as a viable CO₂ mitigation tool, as well as enabling industry to derive profitable new products from these emissions. CO₂ Solutions has built an extensive patent portfolio covering the use of carbonic anhydrase, or analogues thereof, for the efficient post-combustion capture of carbon dioxide with low-energy aqueous solvents. Further information can be found at www.co2solutions.com.

CO₂ Solutions Forward-looking Statements

Certain statements in this news release may be forward-looking. These statements relate to future events or CO₂ Solutions' future economic performance and reflect the current assumptions and expectations of management. Certain unknown factors may affect the events, economic performance and results of operation described herein. CO₂ Solutions undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable law.
