GCM Consultants Inc. and CO₂ Solution Inc. announces the signature of a strategic partnership agreement.

Quebec City, April 30th, 2008 – Mr. Normand Voyer, interim President and CEO of CO₂ Solution Inc. (CO₂) is proud to announce the signature of a strategic partnership agreement with GCM Consultants Inc. aiming to facilitate the implementation of the technology developed by CO₂ Solution for the capture of CO₂ from green house gas emitting plants. Under the terms of the agreement, GCM will be responsible for the engineering of implementation of CO₂ Solution's technology for customers requiring engineering needs to carry out successfully their project.

"With GCM's expertise and capabilities, CO₂ Solution teams up with a first class partner who strategically completes our R&D forces and facilitate the implementation of our technology for customers requesting a turnkey project for the capture of CO₂", said Mr. Voyer.

Enjoying a strong growth with more than 160 employees, GCM is a consulting-engineering company which specializes in the implementation of leading-edge technologies in industrial areas with strong capitalization. GCM offers a wide variety of engineering expertises and is able to perform turn-key projects. GCM Consultants has significant activities in the oil, petrochemical, metallurgical and manufacturing fields. Backed by its industrial experience, GCM has a demonstrated capacity to accomplish reliable and performing installations. "The engineering knowledge of CO₂ Solution innovative process and the expertise of GCM in adapting novel processes to existing installations constitute a guarantee of success for this partnership" added Mr. Pierre Girard, President of GCM Consultants.

About CO₂ Solution

Headquartered in Quebec City, CO₂ Solution aims to become the leader in the design, development, production and marketing of products and services related to the management and neutralization of carbon dioxide and other greenhouse gases. CO₂ Solution, which subscribes to the principles of sustainable development, has developed an innovative enzyme-based technology platform that biologically captures and transforms CO₂ into an environmentally safe substance. CO₂ Solution's technology platform is an important contribution to global efforts to fight climate change.
