## **CO<sub>2</sub> Solution to Exhibit and Present at Premiere CleanTech Investment Conference**

*CO<sub>2</sub> Solution will exhibit with other leading publicly traded CleanTech companies. CEO Glenn Kelly will present Company's plans to capitalize on rapidly growing carbon capture market with its breakthrough biomimetic technology.*

**Quebec – QC / Vancouver - BC, October 22, 2008** – CO<sub>2</sub> Solution Inc. ("CO<sub>2</sub> Solution") is pleased to announce that it will be exhibiting at **Sustainability 2008: Canada's Green Investment Conference**, on October 24<sup>th</sup> and 25<sup>th</sup> at the Vancouver Convention & Exhibition Center, Vancouver, British Columbia and would like to invite associates to register at [www.sustainability2008.com](http://www.sustainability2008.com) to receive complimentary attendee tickets for this event. CO<sub>2</sub> Solution invites interested parties to visit its booth, #405, to learn more about the Company's technology and speak with Management. Glenn Kelly, President & CEO will be presenting on October 24 at 1:30 pm in *Breakout Room 1*.

CO<sub>2</sub> Solution will be among the 55 leading CleanTech organizations exhibiting at the conference which focuses exclusively on investment opportunities in the CleanTech sector. Over 1500 attendees will be provided with a comprehensive overview of CleanTech industries, with alternative energy, clean transportation, green construction, recycling, air purification and carbon capture among those represented.

35 speakers will be presenting on topics including current and future competitiveness of clean technologies, regulatory drivers, investment themes, and Canada's position in the international CleanTech community. Industry leaders, financial experts and international ambassadors are also given the opportunity to converse through a number of discussion panels.

To receive complimentary attendee passes for Sustainability 2008, pre-register today at [www.sustainability2008.com](http://www.sustainability2008.com) (tickets are available for \$35 at the door). For additional information on the conference, please visit [www.sustainability2008.com](http://www.sustainability2008.com) or email [info@sustainability2008.com](mailto:info@sustainability2008.com)

## About CO<sub>2</sub> Solution

*CO<sub>2</sub> Solution Inc. has developed a proprietary bio-technological platform for the efficient capture of carbon dioxide (CO<sub>2</sub>), the most important greenhouse gas (GHG), from power plants and other large stationary sources of emissions. The Company's technology platform exploits the natural power of a bio-catalyst (enzyme), carbonic anhydrase, which functions within humans and other mammals to manage CO<sub>2</sub> during respiration. CO<sub>2</sub> Solution has successfully adapted the enzyme to function within an industrial environment, and thus has taken advantage of a biomimetic approach to CO<sub>2</sub> capture based on millions of years of evolution. The Company is commercializing its technology for coal fired power generation, the oil sands and other CO<sub>2</sub>-intensive industries where a low-cost capture solution is key to meeting climate change legislation in a cost effective manner.*
