Robert Manherz Joins CO₂ Solution's Board of Directors

Proven track record with growth companies further strengthens Board of Directors

Quebec City, September 4, 2008 – CO₂ Solution Inc. ("CO₂ Solution" or the "Company") is very pleased to announce that Mr. Robert Manherz has joined its Board of Directors as a Director on August 28, 2008. In addition to being a significant investor in the Company, Mr. Manherz brings increased operational depth and hands-on start-up expertise as the Company moves to commercialize its technology.

A serial entrepreneur, Mr. Manherz was the Founder and President of ReserveAmerica, Inc., a company he grew from a small software development firm to North America's leading supplier of camping reservation services with over 1,000 employees. Under his successful stewardship, ReserveAmerica was acquired by Ticketmaster, the world's leading ticketing company in 2000. From 2003 to 2005, he was President of, and a principal in 401 Capital Partners Inc., an Ontario based private equity and venture capital firm with investments in the areas of healthcare, biotechnology and digital media. More recently, Mr. Manherz founded as principal, Dundurn Capital Partners Inc. (DCP), a private equity firm with investments focused in clean-tech, sustainable property development and nanotechnology. Recently, DCP's student residence building became one of the first multi-residential buildings in Canada to achieve LEED(R) Platinum certification, the highest environmental standard for sustainability and energy efficiency. Dundurn Capital Partners and Mr. Manherz led the recent \$2.3 million equity investment into CO₂ Solution. Mr. Manherz holds an Honours Mathematics and Computer Science Bachelors degree from the University of Waterloo.

Commenting on the appointment, Rejean Blais, Chairman of the Board stated, "We are privileged to have Robert join the Board of Directors and believe that he will provide valuable contributions to CO₂ Solution's growth plans, as evidenced by his impressive track record of both a successful entrepreneur and venture capitalist. We look forward to utilizing his expertise to further strengthen the Board's ability to fulfil its mandate of supporting commercial deployment of our breakthrough technology."

Robert Manherz stated, "I am very pleased to be joining the Board of Directors at the beginning of what I see as the development of a world class commercial provider of technology for low cost carbon capture. I look forward to working with the other Directors to assist in transforming the company from a Research & Development focused organization to a growth firm aimed at capitalizing on the emerging, multi-billion market for CO₂ capture systems."

As a member of the Board, Mr. Manherz has been granted 10,000 stock options to purchase CO₂ Solution common shares that can be exercised at a price of \$0.30.

About CO₂ Solution

CO₂ Solution Inc. has developed a proprietary bio-technological platform for the efficient capture of carbon dioxide (CO₂), the most important greenhouse gas (GHG), from power plants and other large stationary sources of emissions. The Company's technology platform exploits the natural power of a bio-catalyst (enzyme), carbonic anhydrase, which functions within humans and other mammals to manage CO₂ during respiration. CO₂ Solution has successfully adapted the enzyme to function within an industrial environment, and thus has taken advantage of a biomimetic approach to CO₂ capture based on millions of years of evolution. The Company is commercializing its technology for coal fired power generation, the oil sands and other CO₂-intensive industries where a low-cost capture solution is key to meeting climate change legislation in a cost effective manner.
